

Linwood Pizza had the *great privilege* of serving the crew of *American Pickers* when they were recently in the Stacy, MN area filming a new episode!

We received a call from one of the film crew who inquired about our menu and pizza as he was "making a film" a few miles from our shop. Answering his questions, we explained to him that at Linwood Pizza, we make our own dough and sauce and use only the freshest meat, cheese and vegetables. He then asked about our wings and we explained that we use a broasted wing that we bake and do not deep fry. He was very pleased and said he would get back to us.

An hour later he called back and this time informed us that he was filming "*American Pickers*" and could we provide lunch for Mike, Frank and the production crew.

Sue, one of our pizza artists and a big fan of the show prepared their order.

The *American Pickers* Gang ordered our 21" *Jumbo* Pepperoni Pizza and 12 BBQ and 12 Hot wings. As with most of our customers, they could not believe how *Jumbo* our Jumbo pizza really was when we arrived with their order.

Shortly after we delivered the food we received a call back as Mike wanted to tell us how "**Awesome**" was our pizza and wings!

We know that serving our customers is a *great privilege*, whether they are on a TV show, or our neighbors down the block. We strive every time, with every order, to provide you with, as Mike said, "Awesome food!"

Thank you for choosing Linwood Pizza!
